God in the Lab: How science enhances faith Ruth M Bancewicz

For Dr Ruth Bancewicz, experiencing scientific research first hand brings a sense of awe that enhances faith. She has encountered many others who have similar stories. This book distils that experience, and explores the common ground between science and faith. Science can be unglamorous and tough, but it gives the opportunity to use creativity and imagination, to appreciate the beauty of the natural world, and to experience the joy of finding out new things – thinking God’s thoughts after him. Through the eyes of the author and six other experienced scientists, God in the Lab shows how science can build faith in God.
