Latin American Political Culture: Public Opinion and Democracy presents a genuinely pan-Latin American examination of the region's contemporary political culture. This is the only book to extensively investigate the attitudes and behaviors of Latin Americans based on the Latin American Public Opinion Project's (LAPOP) AmericasBarometer surveys. The findings reveal a complex Latin America with distinct political culture. Authors John Booth and Patricia Bayer Richard join rigorous analysis with clear graphic presentation and extensive examples, and readers learn about public opinion research, engage with further questions for analysis, and have access to data, an expansive bibliography, and links to appendices.
