**Introduction to High-Dimensional Statistics (Chapman & Hall/CRC Monographs on Statistics & Applied Probability)** Christophe Giraud

Ever-greater computing technologies have given rise to an exponentially growing volume of data. Today massive data sets (with potentially thousands of variables) play an important role in almost every branch of modern human activity, including networks, finance, and genetics. However, analyzing such data has presented a challenge for statisticians and data analysts and has required the development of new statistical methods capable of separating the *signal* from the *noise*.

Introduction to High-Dimensional Statistics is a concise guide to state-of-the-art models, techniques, and approaches for handling high-dimensional data. The book is intended to expose the reader to the key concepts and ideas in the most simple settings possible while avoiding unnecessary technicalities.

Offering a succinct presentation of the mathematical foundations of high-dimensional statistics, this highly accessible text:

- Describes the challenges related to the analysis of high-dimensional data
- Covers cutting-edge statistical methods including model selection, sparsity and the lasso, aggregation, and learning theory
- Provides detailed exercises at the end of every chapter with collaborative solutions on a wikisite
- Illustrates concepts with simple but clear practical examples

**Introduction to High-Dimensional Statistics** is suitable for graduate students and researchers interested in discovering modern statistics for massive data. It can be used as a graduate text or for self-study.

### **From reader reviews:**

#### **Harley Fabry:**

A lot of people always spent their very own free time to vacation or even go to the outside with them family or their friend. Were you aware? Many a lot of people spent that they free time just watching TV, or perhaps playing video games all day long. If you would like try to find a new activity that's look different you can read a book. It is really fun for you personally. If you enjoy the book you read you can spent 24 hours a day to reading a book. The book Introduction to High-Dimensional Statistics (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) it doesn't matter what good to read. There are a lot of folks that recommended this book. These were enjoying reading this book. When you did not have enough space to develop this book you can buy typically the e-book. You can more simply to read this book through your smart phone. The price is not to cover but this book offers high quality.

#### **Samuel Jackson:**

Do you really one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Attempt to pick one book that you find out the inside because don't judge book by its deal with may doesn't work this is difficult job because you are afraid that the inside maybe not because fantastic as in the outside look likes. Maybe you answer can be Introduction to High-Dimensional Statistics (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) why because the excellent cover that make you consider in regards to the content will not disappoint you. The inside or content is definitely fantastic as the outside as well as cover. Your reading 6th sense will directly guide you to pick up this book.

#### **Dallas Richardson:**

A lot of guide has printed but it differs. You can get it by web on social media. You can choose the best book for you, science, comic, novel, or whatever simply by searching from it. It is known as of book Introduction to High-Dimensional Statistics (Chapman & Hall/CRC Monographs on Statistics & Applied Probability). You can add your knowledge by it. Without causing the printed book, it could add your knowledge and make anyone happier to read. It is most critical that, you must aware about guide. It can bring you from one location to other place.

#### **William Hill:**

Publication is one of source of understanding. We can add our expertise from it. Not only for students but in addition native or citizen have to have book to know the change information of year in order to year. As we know those textbooks have many advantages. Beside most of us add our knowledge, could also bring us to around the world. With the book Introduction to High-Dimensional Statistics (Chapman & Hall/CRC Monographs on Statistics & Applied Probability) we can have more advantage. Don't one to be creative people? To become creative person must prefer to read a book. Just simply choose the best book that ideal with your aim. Don't possibly be doubt to change your life at this book Introduction to High-Dimensional

Statistics (Chapman & Hall/CRC Monographs on Statistics & Applied Probability). You can more inviting than now.
