Soft Computing and Intelligent Data Analysis in Oil Exploration: 51 (Developments in Petroleum Science)

Soft Computing and Intelligent Data Analysis in Oil Exploration: 51 (Developments in Petroleum Science)

This comprehensive book highlights soft computing and geostatistics applications in hydrocarbon exploration and production, combining practical and theoretical aspects.

It spans a wide spectrum of applications in the oil industry, crossing many discipline boundaries such as geophysics, geology, petrophysics and reservoir engineering. It is complemented by several tutorial chapters on fuzzy logic, neural networks and genetic algorithms and geostatistics to introduce these concepts to the uninitiated. The application areas include prediction of reservoir properties (porosity, sand thickness, lithology, fluid), seismic processing, seismic and bio stratigraphy, time lapse seismic and core analysis.

There is a good balance between introducing soft computing and geostatistics methodologies that are not routinely used in the petroleum industry and various applications areas. The book can be used by many practitioners such as processing geophysicists, seismic interpreters, geologists, reservoir engineers, petrophysicist, geostatisticians, asset managers and technology application professionals. It will also be of interest to academics to assess the importance of, and contribute to, R&D efforts in relevant areas.

From reader reviews:

Reinaldo Downs:

Do you have favorite book? Should you have, what is your favorite's book? E-book is very important thing for us to find out everything in the world. Each e-book has different aim or even goal; it means that reserve has different type. Some people experience enjoy to spend their time and energy to read a book. They are really reading whatever they take because their hobby is usually reading a book. Consider the person who don't like looking at a book? Sometime, man or woman feel need book once they found difficult problem or exercise. Well, probably you will need this Soft Computing and Intelligent Data Analysis in Oil Exploration: 51 (Developments in Petroleum Science).

Linda Carroll:

Have you spare time for just a day? What do you do when you have more or little spare time? Yes, you can choose the suitable activity for spend your time. Any person spent their particular spare time to take a walk, shopping, or went to the particular Mall. How about open or maybe read a book called Soft Computing and Intelligent Data Analysis in Oil Exploration: 51 (Developments in Petroleum Science)? Maybe it is to be best activity for you. You know beside you can spend your time using your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have some other opinion?

Joseph Southard:

As people who live in the modest era should be upgrade about what going on or data even knowledge to make these keep up with the era which can be always change and make progress. Some of you maybe can update themselves by reading books. It is a good choice for you but the problems coming to anyone is you don't know which one you should start with. This Soft Computing and Intelligent Data Analysis in Oil Exploration: 51 (Developments in Petroleum Science) is our recommendation to cause you to keep up with the world. Why, as this book serves what you want and want in this era.

Edgar Villanueva:

Do you like reading a guide? Confuse to looking for your chosen book? Or your book seemed to be rare? Why so many issue for the book? But almost any people feel that they enjoy regarding reading. Some people likes studying, not only science book but also novel and Soft Computing and Intelligent Data Analysis in Oil Exploration: 51 (Developments in Petroleum Science) or even others sources were given understanding for you. After you know how the great a book, you feel need to read more and more. Science reserve was created for teacher or even students especially. Those textbooks are helping them to add their knowledge. In different case, beside science book, any other book likes Soft Computing and Intelligent Data Analysis in Oil Exploration: 51 (Developments in Petroleum Science) to make your spare time a lot more colorful. Many types of book like this.
