Transitional Justice and the Arab Spring

Transitional Justice and the Arab Spring

This book presents a varied and critical picture of how the Arab Spring demands a re-examination and re-conceptualization of issues of transitional justice. It demonstrates how unique features of this wave of revolutions and popular protests that have swept the Arab world since December 2010 give rise to distinctive concerns and problems relative to transitional justice. The contributors explore how these issues in turn add fresh perspective and nuance to the field more generally. In so doing, it explores fundamental questions of social justice, reconstruction and healing in the context of the Arab Spring.

Including the perspectives of academics and practitioners, *Transitional Justice and the Arab Spring* will be of considerable interest to those working on the politics of the Middle East, normative political theory, transitional justice, international law, international relations and human rights.
