CMOS: Front-End Electronics for Radiation Sensors (Devices, Circuits, and Systems)

Angelo Rivetti

CMOS: Front-End Electronics for Radiation Sensors (Devices, Circuits, and Systems) Angelo Rivetti

CMOS: Front-End Electronics for Radiation Sensors offers a comprehensive introduction to integrated front-end electronics for radiation detectors, focusing on devices that capture individual particles or photons and are used in nuclear and high energy physics, space instrumentation, medical physics, homeland security, and related fields.

Emphasizing practical design and implementation, this book:

- Covers the fundamental principles of signal processing for radiation detectors
- Discusses the relevant analog building blocks used in the front-end electronics
- Employs systematically weak and moderate inversion regimes in circuit analysis
- Makes complex topics such as noise and circuit-weighting functions more accessible
- Includes numerical examples where appropriate

CMOS: Front-End Electronics for Radiation Sensors provides specialized knowledge previously obtained only through the study of multiple technical and scientific papers. It is an ideal text for students of physics and electronics engineering, as well as a useful reference for experienced practitioners.

From reader reviews:

Steven Page:

Reading can called head hangout, why? Because while you are reading a book specifically book entitled CMOS: Front-End Electronics for Radiation Sensors (Devices, Circuits, and Systems) your mind will drift away trough every dimension, wandering in each aspect that maybe unknown for but surely can be your mind friends. Imaging each word written in a guide then become one type conclusion and explanation that will maybe you never get ahead of. The CMOS: Front-End Electronics for Radiation Sensors (Devices, Circuits, and Systems) giving you yet another experience more than blown away the mind but also giving you useful info for your better life in this era. So now let us present to you the relaxing pattern is your body and mind is going to be pleased when you are finished reading through it, like winning a sport. Do you want to try this extraordinary investing spare time activity?

Doreen Wolf:

You could spend your free time you just read this book this book. This CMOS: Front-End Electronics for Radiation Sensors (Devices, Circuits, and Systems) is simple to deliver you can read it in the park, in the beach, train and also soon. If you did not get much space to bring the actual printed book, you can buy the particular e-book. It is make you simpler to read it. You can save the book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

William Fields:

Within this era which is the greater man or who has ability to do something more are more special than other. Do you want to become one of it? It is just simple solution to have that. What you are related is just spending your time almost no but quite enough to enjoy a look at some books. One of the books in the top listing in your reading list is usually CMOS: Front-End Electronics for Radiation Sensors (Devices, Circuits, and Systems). This book which is qualified as The Hungry Hillside can get you closer in growing to be precious person. By looking way up and review this guide you can get many advantages.

Marylou Standley:

As a scholar exactly feel bored for you to reading. If their teacher expected them to go to the library as well as to make summary for some guide, they are complained. Just little students that has reading's heart and soul or real their leisure activity. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that looking at is not important, boring as well as can't see colorful pics on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this CMOS: Front-End Electronics for Radiation Sensors (Devices, Circuits, and Systems) can make you sense more interested to read.
