The Biology of Human Conduct: East-West Models of Temperament and Personality (International Series in Experimental Psychology) G. L. Mangan

The Biology of Human Conduct: East-West Models of Temperament and Personality is a three-part book that explores models of temperament, typology and personality, and personality and conditioning. The first part has four chapters detailing the behavior genetic model; typological models; human typology and higher mental processes; and interactional approach to development. The second part covers theories of personality; strength of the nervous system; the orientation reaction; mobility, concentration, and lability; and the structure of nervous system properties. The last part shows sources of variance in conditioning and socialization.
