This volume of papers is dedicated to Peter Woodman in celebration of his contribution to archaeology, providing a glimpse of the many ways in which he has touched the lives of so many. The twenty-one contributions cover many aspects of predominantly Mesolithic archaeology in Ireland, mainland Britain and North-west Europe, reflecting the range and breadth of Peter's own interests and the international esteem in which his work is held. His particular interest in antiquarians and the material they collected began early in his career and Part 1 presents papers which deal with artefacts and finds by antiquarians. Part 2 is concerned with papers on fieldwork projects, both new sites and sites which have been re-investigated, predominantly focusing on the Mesolithic period. Part 3 presents papers on the theme of people and animals, particularly the topic of the Mesolithic-Neolithic transition from different angles.
