International Security and Gender (Dimensions of Security) Nicole Detraz

What does it mean to be secure? In the global news, we hear stories daily about the wars in Iraq and Afghanistan, about domestic-level conflicts around the world, about the challenges of cybersecurity and social security. This broad list highlights the fact that security is an idea with multiple meanings, but do we all experience security issues in the same way?

In this book, Nicole Detraz explores the broad terrain of security studies through a gender lens. Assumptions about masculinity and femininity play important roles in how we understand and react to security threats. By examining issues of militarization, peacekeeping, terrorism, human security, and environmental security, the book considers how the gender-security nexus pushes us to ask different questions and broaden our sphere of analysis. Including gender in our analysis of security challenges the primacy of some traditional security concepts and shifts the focus to be more inclusive. Without a full understanding of the vulnerabilities and threats associated with security, we may miss opportunities to address pressing global problems.

Our society often expects men and women to play different roles, and this is no less true in the realm of security. This book demonstrates that security debates exhibit gendered understandings of key concepts, and whilst these gendered assumptions may benefit specific people, they are often detrimental to others, particularly in the key realm of policy-making.

Nancy Royals:

Do you like reading a guide? Confuse to looking for your preferred book? Or your book has been rare? Why so many question for the book? But virtually any people feel that they enjoy intended for reading. Some people likes reading through, not only science book and also novel and International Security and Gender (Dimensions of Security) as well as others sources were given know-how for you. After you know how the truly amazing a book, you feel wish to read more and more. Science publication was created for teacher or perhaps students especially. Those textbooks are helping them to add their knowledge. In other case, beside science e-book, any other book likes International Security and Gender (Dimensions of Security) to make your spare time much more colorful. Many types of book like this one.

John Dame:

As a university student exactly feel bored for you to reading. If their teacher expected them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's spirit or real their pastime. They just do what the trainer want, like asked to the library. They go to there but nothing reading seriously. Any students feel that studying is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this International Security and Gender (Dimensions of Security) can

make you sense more interested to read.
