The Begum's Fortune: Extended Annotated & Illustrated Edition Jules Verne

This is the fully illustrated and extended annotated edition including a rare and extensive biographical essay on the author, his life and works plus a wealth of illustrations.

Jules Verne's conceptions are as brilliant as ever. Dr. Sarrasin, a French savant, simple in taste and absorbed in science, delivers an address at the Brighton Scientific Association. The publication of it with his name in 'The Daily Telegraph' discovers him to a London lawyer as the lost heir of the Begum, whom his uncle had married in India. He inherits a moderate property of twenty-one millions sterling, all ready for him in the Bank of England. Dr. Schultz, a German professor, also a connection by marriage, threatens to dispute it. They settle the dispute by dividing it. Dr. Sarrasin founds in the Rocky Mountains a city of health, modelled on Dr. Richardson's lines. Dr. Schultz founds at thirty miles distance a stupendous cannon manufactory. One piece fires a shot with a velocity and force that give it perpetual motion. He resolves to destroy Dr. Sarrasin's city. How he fails and perishes by his own science the story must tell ; but it is prodigious. The magnificence and the verisimilitude are perfect.
