Landscape Logic: Integrating Science for Landscape Management

Landscape Logic: Integrating Science for Landscape Management

In 2005, researchers from four Australian universities and CSIRO joined forces with environmental managers from three state agencies and six regional catchment management authorities to answer the question: 'Can we detect the influence of public environmental programs on the condition of our natural resources?' This was prompted by a series of national audits of Australia's environmental programs that could find no evidence of public investment improving the condition of waterways, soils and native vegetation, despite major public programs investing more than \$4.2 billion in environmental repair over the last 20 years.

Landscape Logic describes how this collaboration of 42 researchers and environmental managers went about the research. It describes what they found and what they learned about the challenge of attributing cause to environmental change. While public programs had been responsible for increase in vegetation extent, there was less evidence for improvement in vegetation condition and water quality. In many cases critical levels of intervention had not been reached, interventions were not sufficiently mature to have had any measurable impact, monitoring had not been designed to match the spatial and temporal scales of the interventions, and interventions lacked sufficiently clear objectives and metrics to ever be detectable. In the process, however, new knowledge emerged on disturbance thresholds in river condition, diagnosing sources of pollution in river systems, and the application and uptake of state-and-transition and Bayesian network models to environmental management.

The findings discussed in this book provide valuable messages for environmental managers, land managers, researchers and policy makers.

From reader reviews:

James Crow:

Here thing why this particular Landscape Logic: Integrating Science for Landscape Management are different and trustworthy to be yours. First of all looking at a book is good nonetheless it depends in the content than it which is the content is as delicious as food or not. Landscape Logic: Integrating Science for Landscape Management giving you information deeper and different ways, you can find any e-book out there but there is no e-book that similar with Landscape Logic: Integrating Science for Landscape Management. It gives you thrill reading journey, its open up your own eyes about the thing in which happened in the world which is might be can be happened around you. You can easily bring everywhere like in park your car, café, or even in your method home by train. Should you be having difficulties in bringing the imprinted book maybe the form of Landscape Logic: Integrating Science for Landscape Management in e-book can be your option.

Doris Stanford:

Hey guys, do you desires to finds a new book to read? May be the book with the concept Landscape Logic: Integrating Science for Landscape Management suitable to you? The actual book was written by well known writer in this era. Often the book untitled Landscape Logic: Integrating Science for Landscape Management is one of several books this everyone read now. That book was inspired many men and women in the world. When you read this publication you will enter the new dimensions that you ever know prior to. The author explained their idea in the simple way, so all of people can easily to understand the core of this reserve. This book will give you a large amount of information about this world now. To help you to see the represented of the world on this book.

Aaron Martinez:

The actual book Landscape Logic: Integrating Science for Landscape Management has a lot details on it. So when you make sure to read this book you can get a lot of gain. The book was compiled by the very famous author. Tom makes some research prior to write this book. This specific book very easy to read you may get the point easily after looking over this book.

Nancy Soto:

E-book is one of source of knowledge. We can add our knowledge from it. Not only for students but additionally native or citizen have to have book to know the revise information of year for you to year. As we know those publications have many advantages. Beside we all add our knowledge, can bring us to around the world. By the book Landscape Logic: Integrating Science for Landscape Management we can have more advantage. Don't you to be creative people? To be creative person must like to read a book. Just simply choose the best book that suitable with your aim. Don't always be doubt to change your life with this book Landscape Logic: Integrating Science for Landscape Management. You can more pleasing than now.
