*Matthew Pearl*

**The Professor's Assassin (Short Story)** Matthew Pearl

**Matthew Pearl's upcoming novel, *The Technologists*, is a stunning historical thriller based on the early days of America's great institution of learning, MIT—and a depraved killer teaching Boston to fear its own shadow. In this original eBook short story, Pearl delves further into the turbulent world of nineteenth-century academia to re-create a shocking, real-life, and all-but-forgotten crime.**

William Barton Rogers will one day become MIT's founder and president. But in 1840 he is still a science professor at the University of Virginia. A tall and commanding intellectual, he epitomizes the strong and liberal ways of "Mr. Jefferson's University," a controversial experiment in progressive thought and laissez-faire governance. Then a startling event rocks the school to its foundation. Riots led by masked "volunteers" have begun roiling the campus, exploiting its attitude toward discipline. When one of his colleagues is brutally slain during the unrest, Rogers must become a man of both words *and* deeds to capture the killer—and keep an essential institution from collapsing around him.

**Includes a preview of Matthew Pearl's forthcoming novel, *The Technologists*, which Joseph Finder calls "the best yet from a true master of the historical thriller."**
