## **Deja Review Neuroscience, Second Edition** Matthew Tremblay **Sales Handle**

This high-yield, rapid-fire Q&A book simulates flashcards in a book to help first and second year medical students review neuroscience for their course exams as well as prepare for the USMLE Step 1.

### **About the Book**

The Deja Review series helps you Remember what you already know; the flashcard format helps medical students recall the most important, must-know facts and concepts covered in their course work for neuroscience. This rapid-fire question and answer review book allows students to quickly navigate through the information needed for their course exams and USMLE Step 1. Active recall questions reinforce correct answers to enhance learning - not just passive memorization.

Neuroscience is a required course in many medical schools, some consider it one of the most difficult, and heavily covered on USMLE Step 1. Mnemonics and keywords sprinkled throughout the text facilitate focus on core facts, while clinical vignettes at the end of each chapter allow students to reflect on the topic they have just read.

This book will publish with seven other basic science books in the Deja Review series, along with USMLE Step 1 and USMLE Step 2 review books for a total of 10 new editions of Deja Review in 2010.

BBD: 6/18/2010

In-Store Date: 7/1/2010

Pub Month: July 2010

### **Features**

- Active recall Q&A format simulates flashcards in a book.
- Keywords and mnemonics highlighted throughout the text.
- High-Yield diagrams.
- Content integrated across organ systems to help students understand clinical presentation of basic neuroscience.
- Clinical vignette review questions at the end of each chapter.
- Contributions by med students who just aced the USMLE Step 1.
- Two column format allows for flashcard use of Q and A
- USMLE-format vignettes at the end of each chapter provide review of material covered in a clinical presentation.
- Clinical correlations of basic science throughout the text help students prepare for course work and board exams
- Content complements other review material and works in conjunction with other larger course books.
- Portable size for use on the go
- Chapters written by med students ensures the most up-to-date coverage of content actually covered on

course exam and USMLE

**Matthew Tremblay (Bronx, NY)** is a MD / PhD candidate at Albert Einstein College of Medicine, Bronx, NY with a concentration: Alzheimer's Disease Pathogenesis

### **Reviews**

"I liked the format of the a lot and it made me a bit disappointed that I didn't try to sue the other books from the series. I like learning from the short question/vignette followed by answer format and this book is a great example." -- Eric Chanowski, University of Michigan

" I would recommend this book to my classmates, and in fact have already recommended the series to student who will begin medical school this fall." -- Joshua Lynch, Lake Erie College of Osteopathic Medicine
