SharePoint provides a vital service to businesses--content sharing over Intranet and Internet sites. Microsoft is investing tons of research and development money into content sharing technologies: SharePoint is the "next big thing" for MS Office users, especially in a world where many work teams are becoming geographically dispersed. SharePoint 2007 is a big improvement over former releases, due to enhanced security, better search capabilities, and more robust functionality. Lots of change means that users will have to come up to speed on the new enhancements.

With **SharePoint 2007 Technologies**, readers will gain a working knowledge of the architecture, administration, and end user features offered by SharePoint 2007. This book also provides practical techniques to help IT professionals integrate Sharepoint with other MS products such as Exchange Server. The expertise of the authors, who have helped many businesses leverage Microsoft technologies, makes this book an invaluable tool to anyone interested in deploying Sharepoint '07.

*More than 50,000 HP employees already use SharePoint, and that's just one company!
*SharePoint 2007 enables businesses to share documents, implement version controls, intensify security, and create workgroups, all in real-time
*All companies using MS Exchange Server will examine the latest iteration of SharePoint

So , let's have it and enjoy reading.

Harry Alvey:

As a student exactly feel bored in order to reading. If their teacher questioned them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's heart and soul or real their hobby. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that studying is not important, boring and can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Microsoft SharePoint 2007 Technologies: Planning, Design and

Implementation can make you truly feel more interested to read.
