Modeling, Estimation and Control of Systems with Uncertainty: Proceedings of a Conference held in Sopron, Hungary, September 1990 (Progress in Systems and Control Theory) G.B. DiMasi, A. Gombani, A.B. Kurzhanski

This volume contains the papers that have been presented at the Conference on Modeling and Control of Uncertain Systems held in Sopron, Hungary on September 3-7, 1990, organised within the framework of the activities of the System and Decision Sciences Program of IIASA - the International Institute for Applied Systems Analysis. The importance of the subject has drawn the attention of researchers all over the world since several years. In fact, in most actual applications the knowledge about the system under investigation presents aspects of uncertainty due to measurement errors or poor understanding of the relevant underlying mechanisms. For this reason models that take into account these intrinsic uncertainties have been used and techniques for the analysis of their behavior as well as for their estimation and control have been developed. The main ways to deal with uncertainty consist in its description by stochastic processes or in terms of set-valued dynamics and this volume collects relevant contributions in both directions. However, in order to avoid undesirable distinctions between these approaches, but on the contrary to stress the unity of ideas, we decided to organize the papers according to the alphabetical order of their authors. We should like to take this opportunity to thank IIASA for supporting the Conference and the Hungarian National Member Organization for the kind hospitality in Sopron. Finally we would like to express our gratitude to Ms. Donna Huchthausen for her valuable secretarial assistance. Vienna, February 20, 1991 GIOVANNI B.

From reader reviews:

Mildred Smith:

Is it you who having spare time subsequently spend it whole day by simply watching television programs or just lying on the bed? Do you need something totally new? This Modeling, Estimation and Control of Systems with Uncertainty: Proceedings of a Conference held in Sopron, Hungary, September 1990 (Progress in Systems and Control Theory) can be the respond to, oh how comes? It's a book you know. You are therefore out of date, spending your free time by reading in this fresh era is common not a geek activity. So what these publications have than the others?

Jack Williams:

Don't be worry if you are afraid that this book can filled the space in your house, you may have it in e-book means, more simple and reachable. This specific Modeling, Estimation and Control of Systems with Uncertainty: Proceedings of a Conference held in Sopron, Hungary, September 1990 (Progress in Systems and Control Theory) can give you a lot of friends because by you investigating this one book you have factor that they don't and make you more like an interesting person. This book can be one of a step for you to get success. This e-book offer you information that might be your friend doesn't recognize, by knowing more than additional make you to be great persons. So , why hesitate? Let's have Modeling, Estimation and Control of Systems with Uncertainty: Proceedings of a Conference held in Sopron, Hungary, September 1990 (Progress in Systems and Control Theory).

Joshua Castillo:

As a student exactly feel bored to reading. If their teacher asked them to go to the library or to make summary for some book, they are complained. Just tiny students that has reading's heart or real their pastime. They just do what the professor want, like asked to the library. They go to presently there but nothing reading significantly. Any students feel that reading is not important, boring along with can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Modeling, Estimation and Control of Systems with Uncertainty: Proceedings of a Conference held in Sopron, Hungary, September 1990 (Progress in Systems and Control Theory) can make you really feel more interested to read.

Donna Dalessio:

Reading a book make you to get more knowledge from it. You can take knowledge and information coming from a book. Book is composed or printed or illustrated from each source in which filled update of news. In this modern era like today, many ways to get information are available for anyone. From media social such as newspaper, magazines, science book, encyclopedia, reference book, new and comic. You can add your

understanding by that book. Do you want to spend your spare time to open your book? Or just looking for the Modeling, Estimation and Control of Systems with Uncertainty: Proceedings of a Conference held in Sopron, Hungary, September 1990 (Progress in Systems and Control Theory) when you required it?
