Bio-inspired Computation in Unmanned Aerial Vehicles

Haibin Duan, Pei Li

Bio-inspired Computation in Unmanned Aerial Vehicles Haibin Duan, Pei Li

Bio-inspired Computation in Unmanned Aerial Vehicles focuses on the aspects of path planning, formation control, heterogeneous cooperative control and vision-based surveillance and navigation in Unmanned Aerial Vehicles (UAVs) from the perspective of bio-inspired computation. It helps readers to gain a comprehensive understanding of control-related problems in UAVs, presenting the latest advances in bio-inspired computation.

By combining bio-inspired computation and UAV control problems, key questions are explored in depth, and each piece is content-rich while remaining accessible. With abundant illustrations of simulation work, this book links theory, algorithms and implementation procedures, demonstrating the simulation results with graphics that are intuitive without sacrificing academic rigor. Further, it pays due attention to both the conceptual framework and the implementation procedures.

The book offers a valuable resource for scientists, researchers and graduate students in the field of Control, Aerospace Technology and Astronautics, especially those interested in artificial intelligence and Unmanned Aerial Vehicles.

Professor **Haibin Duan** and Dr. **Pei Li**, both work at Beihang University (formerly Beijing University of Aeronautics & Astronautics, BUAA). Prof Duan's academic website is: http://hbduan.buaa.edu.cn

From reader reviews:

Judith Roemer:

The book Bio-inspired Computation in Unmanned Aerial Vehicles gives you the sense of being enjoy for your spare time. You should use to make your capable a lot more increase. Book can being your best friend when you getting strain or having big problem with your subject. If you can make examining a book Bio-inspired Computation in Unmanned Aerial Vehicles to be your habit, you can get considerably more advantages, like add your own capable, increase your knowledge about a few or all subjects. You are able to know everything if you like wide open and read a publication Bio-inspired Computation in Unmanned Aerial Vehicles. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other people. So , how do you think about this guide?

Kari Annis:

What do you concentrate on book? It is just for students because they're still students or the idea for all people in the world, what best subject for that? Simply you can be answered for that problem above. Every person has distinct personality and hobby for each other. Don't to be obligated someone or something that they don't want do that. You must know how great as well as important the book Bio-inspired Computation in Unmanned Aerial Vehicles. All type of book would you see on many solutions. You can look for the internet sources or other social media.

Jeffrey Price:

Hey guys, do you wants to finds a new book you just read? May be the book with the subject Bio-inspired Computation in Unmanned Aerial Vehicles suitable to you? The book was written by famous writer in this era. Typically the book untitled Bio-inspired Computation in Unmanned Aerial Vehiclesis a single of several books that everyone read now. This particular book was inspired many people in the world. When you read this book you will enter the new dimensions that you ever know just before. The author explained their plan in the simple way, consequently all of people can easily to comprehend the core of this guide. This book will give you a great deal of information about this world now. To help you to see the represented of the world on this book.

Francis Lopez:

Would you one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Aim to pick one book that you just dont know the inside because don't evaluate book by its protect may doesn't work here is difficult job because you are scared that the inside maybe not while fantastic as in the outside appear likes. Maybe you answer is usually Bio-inspired Computation in Unmanned Aerial Vehicles why because the wonderful cover that make you consider about the content will not disappoint you. The inside or content is actually fantastic as the outside as well as cover. Your reading sixth sense will directly assist you to pick up this book.

Read Bio-inspired Computation in Unmanned Aerial Vehicles by Haibin Duan, Pei Li for online ebook
