Unlike casebooks, this title goes with greater detail into the human stories and the social, political, and legal contexts of the "big" Supreme Court cases regarding criminal justice. It unearths details not available anywhere else. In addition to great narrative enrichment, it provides the provocative thoughts of highly respected scholars who are each experts on the particular cases they address. This book will greatly enhance the teaching of both police practices (a/k/a "Cops and Robbers") and criminal adjudication (a/k/a "Bail to Jail") by providing both important context not available in any casebook and by offering the insights of some of the scholars who have thought the most deeply about these cases and issues.
