## Depth of Field: Stanley Kubrick, Film, and the Uses of History (Wisconsin Film Studies)

Director of some of the most controversial films of the twentieth century, Stanley Kubrick created a reputation as a Hollywood outsider as well as a cinematic genius. His diverse yet relatively small oeuvre—he directed only thirteen films during a career that spanned more than four decades—covers a broad range of the themes that shaped his century and continues to shape the twenty-first: war and crime, gender relations and class conflict, racism, and the fate of individual agency in a world of increasing social surveillance and control.

In *Depth of Field*, leading screenwriters and scholars analyze Kubrick's films from a variety of perspectives. They examine such groundbreaking classics as *Dr. Strangelove* and *2001: A Space Odyssey* and later films whose critical reputations are still in flux. *Depth of Field* ends with three viewpoints on Kubrick's final film, *Eyes Wide Shut*, placing it in the contexts of film history, the history and theory of psychoanalysis, and the sociology of sex and power. Probing Kubrick's whole body of work, *Depth of Field* is the first truly multidisciplinary study of one of the most innovative and controversial filmmakers of the twentieth century.
