Limits on technology are the signature mark of twenty-first century Amish identity. Riding in horse-drawn buggies and living unplugged from the public grid unmistakably separate Amish people from mainstream Americans. Yet the Amish do not categorically condemn technology. Nor are they technologically naïve. Rather, Amish communities selectively sort out what might help or harm them. More significantly, the Amish modify and adapt technology in creative ways to fit their cultural values and social goals. Amish technologies are diverse, complicated, and ever-changing.
