The Arab Spring: The End of Postcolonialism Hamid Dabashi

This pioneering explanation of the Arab Spring will define a new era of thinking about the Middle East. In this landmark book, Hamid Dabashi argues that the uprisings occurring from Morocco to Iran and from Syria to Yemen have been driven by a delayed defiance that signifies no less than the end of postcolonialism. Dabashi shows how the Arab Spring has so radically altered the geopolitics of the region that we must now re-imagine the 'Middle East'. And, as he brilliantly explains, the permanent revolutionary mood has the potential to liberate not only those societies already ignited but ultimately many others as well.
