My daughter is almost going to school and I wanted to prepare her for it. I bought this book in the hope that I could teach her something good, and the book didn't disappoint me! I implemented the 7 principles and it helped her a lot! I talk every day with her for at least an hour, we count everything, we share ideas and 'secrets', and we do math with our finger daily. She has grown a lot and she is constantly asking me when we are doing our exercises again. This book is a great read and it really works!
