The Tiny Traveler: Italy: A Book of Numbers

How many gondolas float down the canal? Can you count the number of masks at Carnival? Toddlers will answer these questions and more in this new book from Misti Kenison in her Tiny Traveler series. Travel from Rome to Venice as you and your little one count your way through Italy's most famous landmarks. From one leaning tower to seven fresh pizzas coming out of the oven, you'll catch the travel bug while teaching children the basics of counting!

The fourth book in Kenison's Tiny Traveler board book series will expose your child to another country and culture while teaching him or her the basic concept of counting and numbers. So sit back and explore the world with your little one from your very own living room. Traveling to foreign places has never been so fun, or educational, for young children before!

A wonderful series for young toddlers (0 to 2 years), this book teaches the basic concept of numbers and counting. Can be used at home or in a childcare facility to teach basic concepts.
