About The Gower HR Transformation Series:

The Human Resources function faces a continuing challenge to its role and purpose, in many organizations it has suffered from serious under-representation at strategic, board level. Yet, faced with the challenges of globalism, the need to innovate, manage knowledge, attract and retain the very best employees, organizations need an HR function that can lead from the front. The process of transforming the function is complex and rarely linear. It involves applying and managing technology to manage risk, knowledge and communication. All of which involves a highly complex and, often painful, process of change. The Gower HR Transformation Series will help; it uses a blend of conceptual frameworks, practical advice and global case study examples to cover each of the main elements of the HR transformation process. The books in the series follow a standard format to make them easy to read and reference. Together, the titles create a definitive guide from one of the leading specialist HR transformation consultancies; an organization that has been involved in HR transformation for clients as diverse as Bombardier Transportation, Marks & Spencer, Barnardo's, Oxfam, Schrodgers, UnitedHealth Group, Nestlé, BP, HM Prison Service, Transport for London and Vodafone.
