Confidence Intervals for Proportions and Related Measures of Effect Size (Chapman & Hall/CRC Biostatistics Series) Robert G. Newcombe

Confidence Intervals for Proportions and Related Measures of Effect Size illustrates the use of effect size measures and corresponding confidence intervals as more informative alternatives to the most basic and widely used significance tests. The book provides you with a deep understanding of what happens when these statistical methods are applied in situations far removed from the familiar Gaussian case.

Drawing on his extensive work as a statistician and professor at Cardiff University School of Medicine, the author brings together methods for calculating confidence intervals for proportions and several other important measures, including differences, ratios, and nonparametric effect size measures generalizing Mann-Whitney and Wilcoxon tests. He also explains three important approaches to obtaining intervals for related measures. Many examples illustrate the application of the methods in the health and social sciences. Requiring little computational skills, the book offers user-friendly Excel spreadsheets for download at www.crcpress.com, enabling you to easily apply the methods to your own empirical data.

From reader reviews:

David Soto:

Inside other case, little persons like to read book Confidence Intervals for Proportions and Related Measures of Effect Size (Chapman & Hall/CRC Biostatistics Series). You can choose the best book if you love reading a book. Providing we know about how is important a new book Confidence Intervals for Proportions and Related Measures of Effect Size (Chapman & Hall/CRC Biostatistics Series). You can add knowledge and of course you can around the world by way of a book. Absolutely right, simply because from book you can realize everything! From your country until eventually foreign or abroad you will find yourself known. About simple issue until wonderful thing you can know that. In this era, we can open a book or maybe searching by internet unit. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's read.

John Charlie:

The event that you get from Confidence Intervals for Proportions and Related Measures of Effect Size (Chapman & Hall/CRC Biostatistics Series) is a more deep you excavating the information that hide into the words the more you get interested in reading it. It doesn't mean that this book is hard to be aware of but Confidence Intervals for Proportions and Related Measures of Effect Size (Chapman & Hall/CRC Biostatistics Series) giving you enjoyment feeling of reading. The writer conveys their point in particular way that can be understood by simply anyone who read the idea because the author of this book is well-known enough. That book also makes your own personal vocabulary increase well. Making it easy to understand then can go along with you, both in printed or e-book style are available. We advise you for having this specific Confidence Intervals for Proportions and Related Measures of Effect Size (Chapman & Hall/CRC Biostatistics Series) instantly.

Fabian Luton:

Spent a free the perfect time to be fun activity to try and do! A lot of people spent their sparetime with their family, or their own friends. Usually they undertaking activity like watching television, going to beach, or picnic within the park. They actually doing same thing every week. Do you feel it? Would you like to something different to fill your personal free time/ holiday? Can be reading a book may be option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of book that you should read. If you want to attempt look for book, may be the reserve untitled Confidence Intervals for Proportions and Related Measures of Effect Size (Chapman & Hall/CRC Biostatistics Series) can be fine book to read. May be it is usually best activity to you.

Rebecca Moreno:

People live in this new day of lifestyle always attempt to and must have the free time or they will get lots of stress from both everyday life and work. So , when we ask do people have extra time, we will say absolutely

of course. People is human not really a robot. Then we request again, what kind of activity do you have when the spare time coming to you actually of course your answer will certainly unlimited right. Then ever try this one, reading textbooks. It can be your alternative within spending your spare time, the book you have read is actually Confidence Intervals for Proportions and Related Measures of Effect Size (Chapman & Hall/CRC Biostatistics Series).
