Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science)

David G. Mayer

Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science) David G. Mayer

Evolutionary Algorithms and Agricultural Systems deals with the practical application of evolutionary algorithms to the study and management of agricultural systems. The rationale of systems research methodology is introduced, and examples listed of real-world applications. It is the integration of these agricultural systems models with optimization techniques, primarily genetic algorithms, which forms the focus of this book. The advantages are outlined, with examples of agricultural models ranging from national and industry-wide studies down to the within-farm scale. The potential problems of this approach are also discussed, along with practical methods of resolving these problems.

Agricultural applications using alternate optimization techniques (gradient and direct-search methods, simulated annealing and quenching, and the tabu search strategy) are also listed and discussed. The particular problems and methodologies of these algorithms, including advantageous features that may benefit a hybrid approach or be usefully incorporated into evolutionary algorithms, are outlined. From consideration of this and the published examples, it is concluded that evolutionary algorithms are the superior method for the practical optimization of models of agricultural and natural systems. General recommendations on robust options and parameter settings for evolutionary algorithms are given for use in future studies.

Evolutionary Algorithms and Agricultural Systems will prove useful to practitioners and researchers applying these methods to the optimization of agricultural or natural systems, and would also be suited as a text for systems management, applied modeling, or operations research.

From reader reviews:

Maria Vanness:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity for spend your time. Any person spent their very own spare time to take a walk, shopping, or went to the particular Mall. How about open or read a book allowed Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science)? Maybe it is to be best activity for you. You realize beside you can spend your time together with your favorite's book, you can cleverer than before. Do you agree with it has the opinion or you have different opinion?

Percy Brown:

This Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science) book is not ordinary book, you have after that it the world is in your hands. The benefit you receive by reading this book is information inside this guide incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This particular Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science) without we comprehend teach the one who reading through it become critical in considering and analyzing. Don't be worry Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science) can bring when you are and not make your bag space or bookshelves' come to be full because you can have it with your lovely laptop even cellphone. This Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science) having very good arrangement in word in addition to layout, so you will not sense uninterested in reading.

Arturo McDaniel:

The guide with title Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science) possesses a lot of information that you can discover it. You can get a lot of gain after read this book. This kind of book exist new knowledge the information that exist in this reserve represented the condition of the world right now. That is important to yo7u to know how the improvement of the world. This book will bring you inside new era of the globalization. You can read the e-book on your smart phone, so you can read this anywhere you want.

Cassandra Rosas:

Do you have something that you want such as book? The book lovers usually prefer to opt for book like comic, small story and the biggest you are novel. Now, why not attempting Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science) that give your enjoyment preference will be satisfied through reading this book. Reading routine all over the world can

be said as the means for people to know world better than how they react toward the world. It can't be stated constantly that reading addiction only for the geeky man but for all of you who wants to be success person. So , for all of you who want to start examining as your good habit, you are able to pick Evolutionary Algorithms and Agricultural Systems (The Springer International Series in Engineering and Computer Science) become your starter.
