Files From the Edge: A Paranormal Investigator's Explorations into High Strangeness Philip J. Imbrogno

For more than thirty years, paranormal expert and scientist Philip Imbrogno has investigated—or been witness to—amazing phenomena that push the limits of reality. In *Files From the Edge*, Imbrogno presents the most shocking cases of his career, complete with eyewitness reports and never-before-released photographs.

This scientific investigation into the bizarre paranormal realm of high strangeness features never-before-published, meticulously documented research on the weirdest of the weird—abductions, encounters, and sightings of Bigfoot, sea serpents, and the blood-sucking Chupacabra. Imbrogno examines reports of poltergeists, alien creatures, humanoids, spook lights, ghost voices, earth spirits, and djinn. Using the latest quantum theory, he offers a scientific analysis of how these phantoms of time and space might materialize in our three-dimensional world. Many of the topics covered in this book have been virtually unpublished—until now.
